

Urinal Unit

Features

- Easy access - privacy can be maintained with use of fencing or security panels
- Tough, vandal proof, moulded polyethylene - light and easy to clean
- Same footprint as our disabled access units
- Simple installation, emptying and cleaning
- Spacious interior with room for 6 users simultaneously
- Open at both ends to allow for optimal traffic flow and added ventilation

Technical Specification

Depth (outside)	61.0"	1600mm
Tank capacity	60 gallons	226 litres
Weight	300lbs	136 kilos

All measurements and capacities are approximate and are for guidance only.

The Urinal Unit may be used with the following accessories:

Bactisan Hand Sanitising Spray

- Costs less 'per push' than gels
- Disperses evenly creating less waste
- Saves on labour – you refill less often
- 9000 uses per refill
- Patented no-drip pump system
- Features unique connector – opens and closes automatically when pouch is removed

Airworks Odour Control Disks

- Replaces urinal blocks with a patented, odour-targeting technology
- Fast acting and easily replaced
- Effective over twice as long as traditional 'para' blocks without the harsh chemical exposure
- Works more subtly... softer, more pleasing fragrance
